

48" Coffee Table Assembly Instructions

Tools:

Square Drive Tip (included) with a Power Screwdriver (not included)

Parts Included:

- A** End Assembly (1)
- B** End Assembly (1)
- C,D** Table Rails (2)
- E** Under Table Supports (2)
- F** Table Slats (5)
- G** Colored 3" Screws (8)
- H** Colored 1½" Screws (10)
- I** Uncolored 2" Screws (10)
- J** Square Drive Tip for Power Screwdriver

Instructions:

1. Lay End Assembly (A) on flat surface with mortise holes facing up. Insert Table Rails (C) in mortise holes with mortise holes facing in.
2. Insert Under Table Supports (E) by spreading Table Rails Apart and placing tenons in mortise holes.
3. Place Slats in End Assembly Mortise Holes and line up. Place other End Assembly on top while lining up slats and Table Rails.

4. Locate Pilot holes and fasten top End Assembly to Table Rails using 3" Screws (G).
5. Locate Pilot holes and fasten Slats to top End Assembly using 1½" Screws (H).
6. Flip table over so other End Assembly is up and repeat Steps 4 & 5 on this end.
7. Flip table so that Seat Rail is facing up and attach Under Table Supports to Table Rail using 1½" screw.
8. Flip over and repeat step 7 on other side.
9. Turn table upside down so that Under Table Supports are visible and attach Under Table Supports to Slats using 2" Screws (I).
